

Foil Decoration

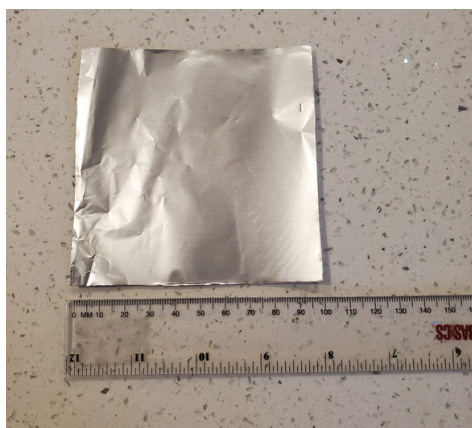

Materials:

- Aluminum foil
- Scissors
- Pen
- Ruler

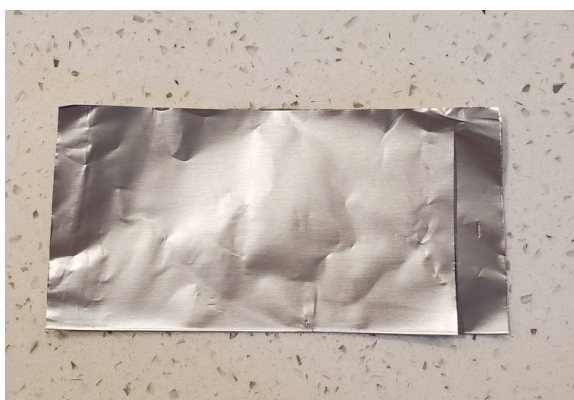

1. Measure and cut out a 10cm x 10cm square of aluminum foil

2. Fold the foil piece in half

3. Measure about 1cm from the side edge and cut in a straight line almost to the top, but do not cut all the way through!

4. Now, rotate the piece and do the same thing, but remember not to cut all the way to the edge!

5. Do this until you have alternating cuts all the way through the piece

6. Now, carefully open up the piece so that its laying in a flat square again

7. Hold the top of the ornament and carefully pull it open.

8. Now, hang it on the tree and watch your beautiful ornament catch the light!
